Professional Summary

Junior Full-Stack Web Developer with experience building responsive, animated Front-End using HTML, CSS, and JavaScript, and working across PHP, WordPress, jQuery, PostgreSQL. I have built web applications with authentication, authorization and tested REST APIs using Postman. I'm seeking a developer role where I can build on my existing experience and continue develop my technical skills. I learn new tools quickly and take a practical approach to problem-solving.

Technical Skills

- **Languages:** PHP, JavaScript (ES6+), TypeScript (basic), Python, SQL
- **Front-end:** HTML5, CSS3, React.js, jQuery, Bootstrap, Tailwind CSS, AJAX
- **Back-end:** PHP (CakePHP), Node.js, Express.js, Laravel (basic)
- **Databases:** MySQL, PostgreSQL, MongoDB
- **APIs & Tools:** REST APIs, Postman, Swagger, Git/GitHub, VS Code, Composer, XAMPP
- **Cloud:** AWS (basic), Azure (basic), GitHub Actions
- **Design & CMS:** Figma, Canva, Photoshop, WordPress

Professional Experience

OzCar Pty Ltd | Full-Stack Web Developer

Sydney, NSW · Full-time *July 2025 – July 2026*

Key Achievements

- Developed and maintained front-end and back-end features for a commercial vehicle valuation application using PHP, CakePHP, JavaScript, AJAX, and MySQL.
- Developed automated vehicle valuation calculations using business rules based on age, kilometres, and trade percentage, replacing manual pricing lookups.
- Implemented secure OTP and QR-code authentication with Google and Microsoft Authenticator, removing SMS-based login entirely.
- Developed responsive web pages from design specifications and tested features across different browsers and screen sizes.
- Built bulk processing and export functionality**,** allowing administrators to process multiple records in a single operation.
- Developed frontend screens and database tracking functionality for internal business workflows.
- Implemented AJAX-based progress tracking and automated processing workflows for inventory management.
- Worked with business users to understand requirements, investigate issues, and deliver new application features.
- Debugged and resolved production issues, keeping the live application stable and supported.

Freelance Web Developer

Part-time / Weekend Projects *Present*

Key Achievements

- Delivered responsive websites end-to-end for friends, neighbours and small businesses using HTML, CSS, JavaScript, PHP, and WordPress.
- Worked with clients to understand requirements and deliver websites based on their needs.
- Provided ongoing support including content updates, bug fixes, and feature changes.

Education
